SAHKTHI ENTERPRISES  
NEW WAY TO RUB AND SHINE

We offer powerful, precise and user-friendly solutions that enable our customers to shape and finish all types of materials even in the most complex and challenging applications.

From simple cutting, grinding, sanding and finishing activities in the DIY market to highly technical, precision operations in specialist manufacturing industries, we understand abrasive quality, performance and cost is critical and can provide a range of solutions to meet any demand.

#### ***Rollac Disc / Speed Lok Disc***

*Rollac / speed lok discs provide exceptional grinding, deburring and blending flexibility in smaller areas with a twist-on and -off fastening system.*

#### ***Belts***

*Aluminium Oxide, Zirconium oxide, Silicon carbide Belts, be it a narrow belt for a portable machine or a large wide belt for stainless steel coil or particle board or laminate finishing, High performance abrasive grain and bond systems make and belts ideal for applications from grinding, deburring and stock removal to sanding and finishing operations on a number of surfaces.*

#### ***Sanding Disc***

*For stock removal and de-burring operations using an angle grinder.*

SAHKTHI ENTERPRISES  
NEW WAY TO RUB AND SHINE

### **Flap Disc**

*Providing long product life in stock removal operations on angle grinders.*

### **Velcro Discs**

*For light stripping, sanding and finishing operations on a disc sander for wood, metal & FRP surfaces.*

### **Flap wheel & Spindle Mops**

*Flap Wheels & Spindle MOPS are an ideal choice for a wide variety of blending, deburring and finishing applications common in the metal fabrication, welding and polishing industries. Flap wheels are conformable to intricate shapes and contours. Designed to deliver a consistent finish with a uniform rate of cut, flap wheels wear away, continually exposing fresh abrasives*
